

Blackbox Xtreme

HOW TO UPDATE CHANNELS & TV GUIDE

Watch for errors as you update the channels/TV Guide.

Refresh Channels:

From the BBTv Main Menu screen, go to the left Menu bar and click the Refresh() icon. It's the 3rd icon from the bottom. Give it some time to load; when you see Close, Click the Center Button and Click back button when you see OK.

Refresh EPG(TV Guide):

Go down and click Settings()
Arrow down and Click on the EPG teleguide tab. On the next screen click Reload Teleguide. Wait for it to finish and when you see OK. Click back button on the remote. That's it. All done.
